

ARM-5

22 March 1963

MEMORANDUM FOR: Chief/Special Security Center

SUBJECT : Proposed Consolidation of
25X1A [REDACTED] Clearances

REFERENCE : Memorandum for DD/R from C/SSC,
dated 13 March 1963, subject: same as
above ([REDACTED]), 25X1A

We have reviewed the referenced staff study with much interest and applaud the objective of simplifying and consolidating related clearances under the [REDACTED]. We fear, 25X1A however, that the necessity to maintain need-to-know in various subcompartments as proposed in the staff study may fall short of the desired objective. [REDACTED] C/OSA/SB, has supplied 25X1A to you a more detailed explanation of his concern on this point as well as suggesting some possible alternative approaches. We commend these comments to your attention. The DD/R will be glad to assist in the continued pursuit of this subject.
